Mr. Jaffary has a B.S. in Mathematics from the University of Illinois at Chicago and an M.S. in Applied Mathematics. See next page for more.

All classes are held at  
Burr Ridge Community Center  
15 W 400 Harvester Drive

**630-920-1969**

# Saturday Morning Tutoring

Does your child have “math anxiety”? Does he/she need extra help with details? Would your child simply like a head start? Is your child an advanced student that wishes to move beyond the classroom?

No matter the level, we have it all right here. Now in its 5th year running, the BRPD Mathematics Tutoring Program has made a difference in students' perception, understanding, practice and appreciation of Mathematics.

Students meet in small group sessions and can choose to work independently or with others. We will:

- 1) Assess your child's current abilities
- 2) Review what your child is learning in school
- 3) Provide a bridge between these two points, and
- 4) Enhance your child's understanding from the ground up to keep them ready for new topics

Mathematics is not memorization. It needs good study skills, lots of practice and most of all, lots of patience! Your child will learn good study habits, receive clear and helpful practice exercises and learn to overcome challenges – without feeling rushed.

# Private Tutoring

Instructor Abbas Jaffary has been a tutor with the Burr Ridge Park District in August 2006, teaching Mathematics & Elementary Science both on site and at an after-school program at Gower West Elementary in Willowbrook. Abbas has an M.S. in Mathematics from the University of Illinois at Chicago and currently teaches Math at Moraine Valley Community College and East-West University.

Mr. Jaffary believes that learning is a creative problem-solving process, and every student develops these skills in their own way. He incorporates student interests such as sports, music, art, animals, games, computers and business into lesson plans that explain how science and math are used every day.

Tutoring is available for Elementary Mathematics through Calculus, elementary through middle school Science, high school Biology, Chemistry and Physics, regular and accelerated classes. Call 630-920-1969 for details.
